DEPARTMENT OF
BACTERIOLOGY AND IMMUNOLOGY
THE HAMILTON KING MEEK
MEMORIAL LABORATORY

375 SOUTH STREET,
LONDON, CANADA

February 8, 1951

Dear Lederberg,

I will gladly lend you my
sole remaining reprint
of the 1944 article for
your enterprise. I no
longer have the original
plates and only one
negative of its many
photographs, so we shall
have to be content with
3rd hand reproductions.
Perhaps you could make
use of the satisfactory
and quite typical

pictures of nuclear structures
in two Bacillus species
which I enclose. Details
are on the back of the
photograph.

What news about
diploids?

Sincerely yours

C. Robinson
